

WOMEN TO MAKE RACE FOR OFFICE

Mrs. J. H. Anderson and Miss Ernestine Noa Mentioned for School Board.

The battle of the ballots above, the clouds on the first Tuesday in next April for the city officers on Lookout mountain will find the ladies of that aristocratic and historic precinct exercising their right of suffrage. An amendment to the charter of the little town, which was passed by the last legislature, gives to the women of Lookout Mountain the first right to vote in municipal elections in Tennessee and the only right in the entire south with the exception of a little town in Florida. The ladies on the mountain are already becoming intensely interested in their new rights and privileges and have stated their intention of capturing one place on the school board and possibly two. Already in this connection the names of Mrs. J. H. Anderson and Miss Ernestine Noa have been mentioned. Mrs. Anderson is now president of the Parent-Teachers' association and has done much excellent work along this line, and Miss Noa is recognized as one of the leaders in social and civic affairs on the mountain.

The city officers to be elected in April are the board of commissioners and the school board. There are five members of the board of commissioners and three of the school board, and it is in the latter capacity that

RAILROAD MEN, READ! YOUR BROTHER SPEAKS

"I was afflicted with what the doctors said were Varicose Ulcers, and until about five weeks ago I had them for about a year and five months. With all the treatment prescribed by several doctors I received little benefit, and they kept spreading, gave me much distress and caused me to quit work. I was induced by a brother brakeman to try Peterson's Ointment, and after I had used two boxes I saw the wonderful results. You can tell suffering ones troubled with ugly, painful and horrid ulcers that your Ointment is a cure for them when everything else fails, as I have tried about everything. "Thanking you many times over, I am, your happy friend, Chas. J. Heyser, Battle Creek, Mich., 42 Glenwood." "I know and dozens of people write me," says Peterson, "that Peterson's Ointment also cures eczema, pimples, blackheads, old sores, salt rheum, piles and all skin diseases, and all druggists sell a big box for 90 cents."—(Adv.)

THROAT AND LUNG AFFECTIONS

and stubborn coughs and colds, that often lead to such distressing chronic disability, are often benefited by using **ECKMAN'S ALTERATIVE**. This Calcium preparation often arrests development of the affliction and aids in recovery by rebuilding depleted tissue and renewing strength. Contains no Alcohol, Narcotic or Habit-Forming Drug. 32 size, now \$1.50. 51 size, now 80c. Price includes war tax. All druggists. Eckman Laboratory, Philadelphia.

FOUR SETS OF TRIPLETS, THREE SETS OF TWINS AND "LONE JIM"

Stork Unusually Liberal With Willie Williams but He Must Needs Appeal for Material Assistance—Children and Children at Humble Home.

Willie Williams told a story of children to the superintendent of the Associated Charities late Monday afternoon that made her stare blinky in wide-eyed astonishment. When he had finished, all she and the listeners could think of for hours was triplets and twins. The stork first visited Willie's house and brought Jim; just Jim. He came back in less than a year and brought William, Willie and Fannie a nice set of triplets. The father said that he was mighty proud and happy. Then the stork came again with Jackson, Isabella and Miami, the second set of triplets. The third set was Holder, Emmett and Sanders, and the fourth Tom, Annie and Cager.

Four sets of triplets—all alive and healthy—and, poor old Jim, who came into the world by himself, was too much to keep quiet, and pretty soon curious persons came into the office to see Willie, but he had merely started. Following the last triplets there came twins—Lila and Bee. Then another set of twins—Ann and Simma. That was not all, the big Teuton fowl made another visit and left John and Mollie. Three days after the birth of the last twins, Isabella, the mother of all, died. The children are all alive today and five of the boys—Jim, Willie, William, Cager and Simma—are in the army.

Four sets of triplets, three sets of twins and poor single Jim is enough to stagger any one. Williams is colored and 70 years old. He was born in Maryland and later moved to Richmond, Va., when he was too young to remember. Some time later

Mrs. Anderson and Miss Noa may later announce their desire to serve. The present board of commissioners on the mountain consists of J. H. Wheelock, P. F. Jones, Newell Sanders, W. Bingham and Webster James. Of the present commissioners three men, Sanders, James and Bingham, have announced that they will not seek re-election, which leaves only two members of the present board who will likely be candidates. It is stated that when the coming election draws near, five candidates for commissioners, in the persons of O. B. Andrews, Hollis Caldwell, J. H. Wheelock, J. W. Tyler and B. S. Annis, will be found in the race.

The present school board consists of John Chambliss, J. T. Charlton and Arthur Allen. It is understood that neither Mr. Allen nor Mr. Charlton will seek re-election, leaving Mr. Chambliss as the only one who will probably be a candidate to succeed himself. The other candidates who are mentioned in connection with the two vacancies on the school board are, as stated, Mrs. Anderson and Miss Noa. It is also understood that J. H. Kellar would like to represent his precinct on the school board.

There are at present about 130 men voting on the mountain, and with the right of woman suffrage the vote will be raised to about 200. The ladies, however, state that when the count is all in on their first voting day, the city government of Lookout Mountain will be a government for the ladies, by the ladies and of the ladies.

TODAY'S AID TO BEAUTY

Hair is by far the most conspicuous thing about us, and is probably the most easily damaged by bad or careless treatment. If we are very careful in hair washing, we will have virtually no hair troubles. An especially fine shampoo for this weather, one that brings out all the natural beauty of the hair; that dissolves and entirely removes all dandruff, excess oil and dirt, can easily be used at trifling expense by simply dissolving a teaspoonful of Canthrox (which you can get at any druggist's) in a cup of hot water. This makes a full cup of shampoo liquid—enough so it is easy to apply it to all the hair instead of just the top of the head. This chemically dissolves all impurities and creates a soothing, cooling lather. Rinsing leaves the scalp spotlessly clean, soft and pliant, while the hair takes on the glossy richness of natural color, also a fluffiness which makes it seem much heavier than it is. After Canthrox shampoo, arranging the hair is a pleasure.—(Adv.)

RAILROADS USE ONE TERMINAL

Beat Federal Authorities to Predicted Economy—Means Increased Efficiency.

Arrangements were made Monday for the long-predicted consolidation of terminals in Chattanooga. Although the arrangements were not final, they are almost sure to be acted upon definitely. At first it was thought that the terminals would be consolidated under the direction of the government and that a government agent would be placed at the head of the entire system. The railroad realized that something could be done in this line and beat the government to the proposition when the meeting of all of the heads of the roads leading to Chattanooga were called into a conference Monday.

Those who attended the conference were: Theodore Spelden, assistant general manager of the Nashville, Chattanooga & St. Louis railroad; Frank A. Dowler, superintendent of the same system; W. T. Caldwell, general superintendent of the Southern railroad lines, west; W. E. Wheelock, local superintendent of the Southern, and W. T. Ramsey, superintendent of the Central of Georgia railroad. The recommendations drawn up at the meeting were telegraphed to the heads of the roads for approval. In two instances the presidents will be called upon personally.

Under the new arrangements, if they go through, the Terminal station will be used for all passenger traffic and the Union station will be used for terminal offices. Under this arrangement much expense and time would be saved. A large building could be built on the site of the Union station, and the property there greatly improved.

The Nashville, Chattanooga & St. Louis will use the Southern tracks from Wauhatchie to Chattanooga and will go through the Lookout mountain tunnel. Much of the traffic across Market street will be eliminated in this way. The market street crossing has always been considered particularly dangerous.

By an agreement, switch engines going between yards will carry loads going and coming. Under the old system, a Southern engine taking cars into the Nashville, Chattanooga & St. Louis yards would not bring cars of that road into their yard when they returned, and vice versa. Under the new arrangement, the engines will bring back a load whenever it is possible.

All record offices will be combined. Each road now keeps a record office and the travels of each car are outlined in detail. The cars under the pooling system will have such a wide range that it will be easier to keep up with them if they are all recorded in the same office.

The Belt line is to handle all freight movements to Alton Park. When industries began to spring up in that section all of the road traffic in the city ran freight spurs to the district. Thousands of dollars were spent in an attempt to get the business. Competition in delivering cars to the factories will be eliminated.

Many changes will be made following the approval of the recommendations. The forces will be distributed so that excesses in one department can relieve shortages in others. These changes are along the lines first suggested, which were that the pooling of stock and forces was the greatest way in which the roads could help relieve the situation. Just when the recommendations will be acted upon is not known, but an attempt will be made to get them approved at the earliest possible date.

NOTICE

All employees of the Walsh & Weidner Boiler Co. are requested to report for work Wednesday morning at 7 o'clock.

SENATE ADJOURNS UNTIL THURSDAY

Two Days' Recess May Cool Partisan Debaters Aroused by Stone's Speech.

Washington, Jan. 22.—Smoldering fires of partisan feeling were set ablaze in the senate yesterday by Senator Stone, veteran democrat, with a long, prepared speech, accusing republicans of playing politics in their criticisms of the government's conduct of the war and calling Theodore Roosevelt "the most seditious man of consequence in America."

There had been plenty of advance notice of the speech, which administration leaders sought vainly to induce the Missouri senator to abandon or postpone. The senate galleries were crowded and republican spokesmen were waiting with replicas. There were many sharp interruptions during the two hours Senator Stone was speaking, and when he closed Senators Penrose, Lodge, New and others on the republican side answered with vigorous defense of their right to make proper criticism of inefficiencies and with counter-charges of partisanship.

Senators Lewis, Kirby and others joined in the fray, which lasted until the session ended last night with adjournment until Thursday.

It was suggested in the lobbies that the two days' recess was arranged in the hope that both sides would cool off and the controversy be dropped. Many senators who did not take the floor yesterday were busy with notes, however, and doubt is generally expressed that another outbreak can be prevented. Senator Johnston, of California, was particularly busy with his pencil when Senator Stone attacked Col. Roosevelt.

In spite of the vigorous language used by the debaters, much of the time during yesterday's battle the galleries and floor were in laughter. Senator Penrose's sallies would set the chamber into a titter when the discussion was taking its most serious turn. Several times Vice-President Marshall threatened to clear the galleries, and once he actually ordered it done. But Senator Jones' point of order that most of the disorder was among the senators themselves prevailed.

Senator Stone delivered his attack in characteristically vehement fashion. He strode the middle aisle, shouting, menacing with clenched fist or wagging finger his political opponents on the other side.

Senator Penrose, in his reply, conceded his desire to oust the democrats from control of the government, declaring that efficient administration would be thus secured.

WONDERFUL NATURAL REMEDY FOR THOSE STOMACH TROUBLES

GEORGIA MAYOR ENDORSES IT

Suffered Years Ago With Indigestion—Took This Remedy, Got Relief.

E. S. Pinkston, Mayor of Parrott, Ga., and prominent throughout that section of Georgia, writes the following glowing tribute to Acid Iron Mineral:

"I suffered from indigestion for many years, but about twenty years ago some one recommended Acid Iron Mineral to me and since that time I have recommended it to others, and they, too, inform me it is a great remedy for these troubles. I heartily recommend it to all who have indigestion or stomach troubles."

It is real economy to get the good from the food you eat. It is the time to be at your best and share in the high wages as well as pay with the rest the high prices of living. Make yourself more efficient. Set your stomach in order. Get a bottle of Acid Iron Mineral today.

IF STOMACH IS BAD TRY THIS REMEDY

People in Widely Separated Cities Test Natural Iron Remedy for Indigestion.

IRON BUILDS YOU UP, TOO.

Acid Iron Mineral in Chicago sells like hot cakes. A well-known wholesale distributor of Chicago writes: "Words are inadequate to express the gratitude I feel for what 'A. I. M.' has done for me. I have been completely cured of stomach and intestinal trouble by this wonderful remedy. I endured for six years the most intense suffering from gastritis and intestinal inflammation. I received treatments from the best specialists and had two operations performed, but all without avail. Finally I was on the point of despair, having been informed by a physician that my case was hopeless. I accidentally learned then of this A. I. M. remedy, and taking it according to directions, I found the wonderful, truly wonderful, results mentioned above. That was four years ago, or in the spring of 1913, and I have enjoyed perfect health and been able to attend to my work continuously ever since." (Signed) F. A. Kirby, 6105 Eberhart Ave., Chicago, Ill. In Mr. Kirby's original statement he also gives names of hospitals, doctors and much other data left out for obvious reasons. His enthusiasm has caused him to recommend A. I. M. to thousands of business acquaintances, and we have a whole stack of testimonial letters of praise from that city alone.

Get a bottle. Take a few drops in a glass of water after every meal a few days. Watch results. Won't you do it?

Drug stores sure to have it are listed below. Get a bottle of the nearest—today.

Remarkable Discovery of MEDICINAL IRON MINERAL Deposit Brought to Light Another of Nature's Phenomena—Compared to Radium.

Testimony of Several Users Submitted as Proof of Claims Made for It.

MAKES A CHEAPER, STRONGER MEDICINE

The discovery of a great medicinal iron deposit down in Mississippi, hidden away for centuries, brings to light another wonder of nature, which, like radium, means much to suffering humanity. Chemists have failed to imitate it successfully. It is more powerful than any similar iron preparation and is more economical, and best of all, does not injure the teeth or stomach as some iron preparations are apt to do.

It is being extracted by the Ferrodine Chemical Corporation of Roanoke, Va., in the most approved fashion and bottled in the mountains, highly concentrated, filtered and made ready for use.

Just a few drops of this Acid Iron Mineral, as it is called, when mixed with water and taken three times a day after meals make a wonderfully efficient stomach, digestion and appetite remedy.

There isn't a drop of dangerous alcohol in it. It is the very elements doctors have prescribed for many years. There is no need to buy weaker, prepared preparations. Acid Iron Mineral is stronger, cheaper, better for you. Get a bottle today.

"ENTIRELY CURED MY INDIGESTION"

Three Bottles Knocked Out Bad Case of Indigestion and Improved His Nerves.

W. F. Alexander, a well-known contractor of Mooresboro, N. C., says: "I suffered from indigestion so bad I couldn't rest or sleep at night. The pains in my chest were bad and I was troubled with shortness of breath so bad sometimes I would have to sit up to catch my wind. Three bottles of Acid Iron Mineral cured me, however, and I want to put the credit where it belongs, because you have certainly got a 'blamed good' remedy." Continuing, Mr. Alexander said: "Another thing it did was cure an uncle of mine of always eating cloves, ginger and pepper to ward off indigestion. A. I. M. cured him of that habit, alright."

Read what some other folks say on this page about this strange, cheap and powerful natural iron mineral that the great Ferrodine Chemical Corp. is putting up under their thirty-year famous "A. I. M." trademark, which assures quality and strength. Get a bottle to try, won't you, if so troubled?

HUGH GALLAGHER SAYS ITS GREAT

Florida Farmer-Merchant Says a Few Drops of "A. I. M." Made Him New Man.

IS POWERFUL STUFF

Hugh Gallagher, a pretty well known farmer and merchant around the little town of Dover, Florida, was numbered among the thousands who drag around half sick and instead of liking work would rather lie in bed and wish his work was done. But that is not so now, according to his letter.

"Acid Iron Mineral has cured me and I gladly endorse it. I was drowsy, dopey and felt dull and sort of lifeless, and indigestion was causing me to have a heavy, bloated fullness in my chest and upper stomach. I felt sluggish and sleepy. Doctors said it was chronic indigestion. I took 'A. I. M.' and my appetite came back. It built me up—made a new man of me. I eat anything I want. Am cured."

The above statement of Mr. Gallagher surely proves that one needn't drag around earning half pay while every one else is catching the fat worms these days of big wages. Everybody ought to make more and to earn more you must get the system working right, so you feel like yourself. So you can get the good from your food. Thousands endorse "A. I. M." because it is a cheap, very powerful iron tonic without booze or narcotics to cause reactions.

Just a few drops in a glass of water after meals does the trick. Your stomach will be glad.

VIRGINIAN SAYS IT CURED HIM COMPLETELY

That Was Three Years Ago. Hasn't Needed Medicine Since—Feels Stronger, Healthier, Younger.

Mr. J. S. Mitchell, probably one of the most progressive farmers in Virginia, writes: "I was in a depleted, nervous condition and suffered from indigestion. I felt so weak and sluggish I hardly felt able or inclined to even walk about. Then Acid Iron Mineral cured me completely and permanently, and I have not felt the need of medicines of any kind since I took A. I. M., and that was over three years ago. Today I feel younger, stronger, healthier, and can sincerely recommend this valuable medicine to anyone suffering as I did." (Signed) J. S. Mitchell, Salem, Va.

Think what permanent relief would mean. Alcohol in medicine is apt to react, but this natural iron medicine is cheaper, stronger, better for you. The drug store below has it. Get a bottle. Start tomorrow. Then know what we mean by absolute, complete relief. (See folder with bottle.)
